# About the Congressional Internet Caucus Advisory Committee

The Advisory Committee works with Members of the Caucus to educate policymakers on Internet related issues. With participation from Members of the Caucus and funding and logistical support from the Internet Education Foundation, the Advisory Committee hosts regular forums to discuss important Internet-related policy issues. Since its founding, the Advisory Committee has built a membership of over 100 organizations from a broad cross-section of the public interest community and the Internet industry. Advisory Committee members include:
